ASKING PRICE: **(\$66,805,894 USD est.)**
€57,900,000 EUR

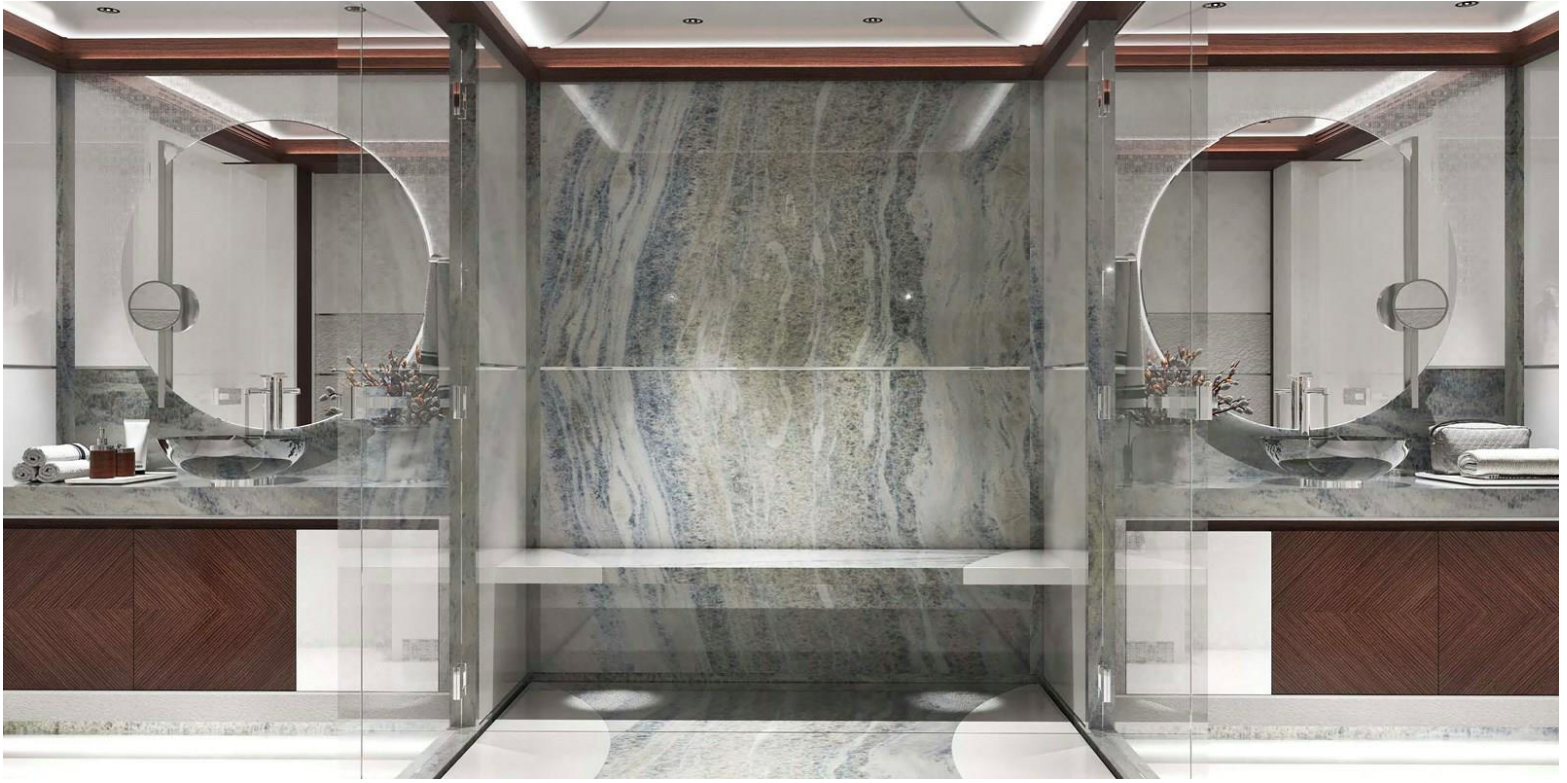

FIRST IMPRESSION

Project Frida is packed with all the latest features and design innovations.

The superstructure is adorned with a “shark tooth”, which is a smart design signature on the overhang of the wheelhouse that lends a powerful personality. The clean and svelte design required the removal of fashion plates; for example, the superstructure aft is completely free from pillars offering uninterrupted ocean vistas. This design feature significantly improves the indoor/outdoor connection and offers unsurpassed views of the sea from virtually every location on board, even when seated in the sky lounge. In the restyle, we even eliminated the window mullions in the main deck dining and sky lounge to afford an even stronger connection with the exterior surroundings.

The beauty of Frida also lies below the waterline. Thanks to her ultra-performing and extremely comfortable Fast Displacement hull in combination with two compact MTU4000 M63 (IMO Tier III), she will reach a top speed of 15,5 knots and will sail safely in all sea conditions.

STEP ABOARD

Frida welcomes twelve guests in six staterooms, with the vast 86 sqm owners' quarters on the main deck forward, four guest cabins on the lower deck and the VIP on the bridge deck. This layout makes the Heesen 55-metre class ideal for charter or for Middle Eastern clients who appreciate lots of cabins.

Frida's interior design by Luca Dini Design and Architecture centres on creating a reassuring and traditional ambience that exudes warmth and welcome. The design employs a palette of warm tones that envelop guests in a sense of comfort and homeliness, making it an ideal retreat for those who spend extensive time on their yacht.
