Remarks

The Swan 60 FD was conceived to meet a growing demand for a model engineered for performance, comfort and style. This performance orientated Swan boasts high stability, direct steering system, foils, carbon fibre spar package, and easy handling results in a light, responsive yacht. The cockpit is spacious and offers the choice of a clean open transom version or functional closed transom version, which features a sunbathing area and dinghy garage. The result of extensive research and use of advanced materials is a low drag hull and appendage package, with a long dynamic waterline at displacement and semi planing speeds. The Swan 60 FD has a T shaped blade keel and lead bulb and comes with two draft options (3.6 m and 2.9 m), both using the same structure and offering enhanced stability. Designed to maximize living space and offer plenty of natural light, the interior is of symmetrical linear layout and both attractive and practical, with options for the location of the owner's cabin. The large saloon combined with a spacious navigation station forms the base of the interior with a generously sized owner's cabin forward and two symmetrical guest cabins with en-suite facilities aft.
