General Description

From the Italian master craftsmen at Castagnola, ANGRA TOO can smoothly achieve speeds over 30 knots thanks to her waterjet propulsion. Her interior and exterior lines were conceived by the studio of Andrea Borzelli and Sara Berta working together with Giovanni Castagnola, who also developed the naval architecture and engineering with Eng. Francesco Rogantin A yacht for the connoisseur ANGRA TOO has large spaces and great liveability, both in the living area and in the sleeping area. Her main deck offers a huge saloon aft, with a great connection to the outside world, and inviting lounge and a bar area.
