REFIT HISTORY

The boat has a lower deck, where you can find 3 double cabins for guests and 3 cabins for crew, one of them being modified after the construction of the boat, not being reflected in the original plans. In a testament to Astondoa's versatility, the space where the fourth cabin would normally sit has been used to fit a SPA complete with Jacuzzi and hammam.

Skipper cabin: this cabin was formerly a crew cabin, later modified by Astondoa S.A. Shipyards, now being the skipper's cabin.

CONCLUSION

NINITAS A an Astondoa Century series built to commemorate the hundred years anniversary of this Spanish shipbuilder has been refitted to include a spa cabin that can be converted back to a fifth guest cabin and an extra separate Captain's cabin on the lower deck. Her interior is modern and stylish, and her flybridge is extremely spacious running almost the entire length of the yacht while maintaining wide and practical side passages. Her retractable sunroof offers the perfect set up for sun-worshippers amidships. She has been inspected in November 2022 and is found to be in great condition. VAT excl.
