## Description

Re-launched in 2020 in Bodrum, SY WHITE WINGS exemplifies a remarkable blend of tradition and modernity. Built with a deep respect for the classic boat-building methods that have been perfected in the region over the centuries, she features a keel and planking made of solid oak. The superstructure is crafted from mahogany, while the deck is laid with Burma teak.

WHITE WINGS boasts impressive volume and a spacious layout with five cabins, making her an ideal choice for memorable vacations with family and friends. Her current owner has enjoyed sailing her all around the Mediterranean, creating countless cherished memories along the way.

In 2019, he embarked on a journey to rebuild and refit the yacht, ensuring she remains in top condition for future adventures, while paying tribute to her past. The exterior frame and planking were found to be in excellent shape, while the interior and superstructure were completely stripped and rebuilt. All mechanical and electrical equipment was replaced, and the traditional wooden rig was upgraded to a modern aluminum rig.

As a result, White Wings now presents as a contemporary yacht, seamlessly blending her modern features with her traditional heritage. After many years of ownership, her current owner is ready to pass her on, offering someone else the chance to create their own unforgettable memories aboard this modern classic schooner.

## INTERIOR DESCRIPTION

Thanks to an almost 8m beam WHITE WINGS offers fantastic volume below deck, as well as incredible deck spaces.

The interior is made of classically finished solid wood adding warmth and a feeling of sophistication.

The raised salon offers plenty of seating, as well as great views out.

Below deck 10 guests sleep comfortably in 5 cabins, including a spacious full-beam master all the way aft.
