## **General info**

Built in GRP by Italian shipyard Ferretti, *Lady Dia* was launched in 2011 as the first hull in its Custom Line 124 series. She was designed inside and out by Zuccon International Project and received a refit in 2016.

Accommodation is for up to 12 guests across five staterooms, comprising a main deck master suite, accessed through a private office, with four cabins on the lower deck and further accommodation for a crew of seven. Her interiors are decked out in cherry wood with plush carpets and a neutral colour palette running throughout.

A contemporary open plan main saloon and formal dining area is illuminated by large windows to either side with sliding doors leading to a fold down sea terrace. Above, on the upper aft deck, guests are treated to a bar, Jacuzzi and sunpads, with one of two al fresco dining options on board. A second, more informal, option can be found on the bow.

Power comes from a pair of 3,510 MTU 12V M93L engines for a top speed of 25 knots and a cruising speed of seven knots.
