Overview

Where The Build Stands

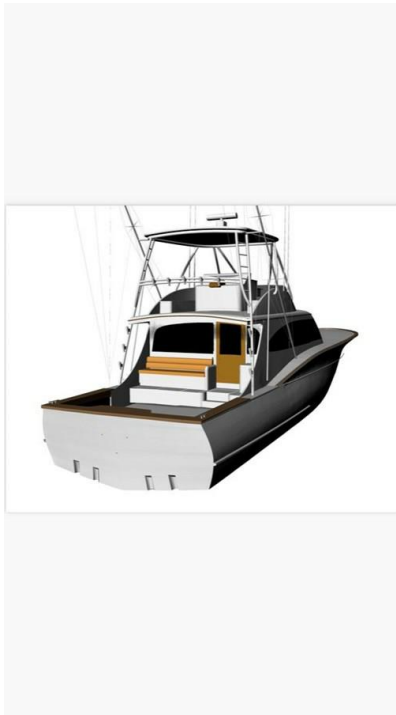

Guthrie Boat works, owned by Terry Guthrie, was commissioned to build the hull and bridge in 2020 with a 67' LOA and an 18' beam. Once finished the boat was moved from the Jarrett Bay Boatworks Yard to Croswait Custom Marine Services in Wanchese, North Carolina.

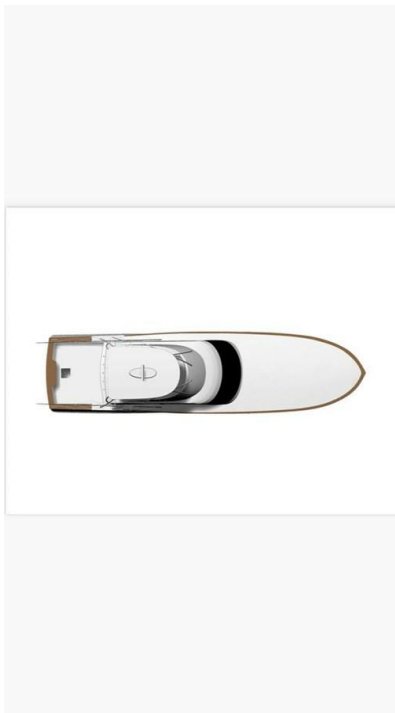

The hull has been digitized by Donald Blunt to outline the interior design and the hardtop was digitized by Palm Beach Towers to begin planning the tower layout, rigger locations, and overall bridge design. The hull has been sanded and is already prepped for extra laminate.

Ready For A New Owner

Overall, the boat is ready and is in a perfect location for a new owner to begin customization and finishing the build. Renderings have already been created which can be seen in the pictures above, however the boat can be built to fit any owner's ideal layout.
